

## PROJECT MANAGER

### **Opportunity:**

For a project manager to lead Hixson's team of architects, engineers and interior designers in areas of scope, budget and quality. Work closely with clients to identify their needs and, with the project team, develop successful solutions. This key role requires a professional with proven high levels of personal integrity, follow-through and the ability to get results while representing our client's best interests.

### **Position:**

Reports to directly to the SVP/Project Manager. Leads overall direction of Hixson's specialized design projects. Assesses challenges, takes charge and executes successfully towards the overall completion of projects, maintaining rapport with clients and key contributors. This position will proactively interact with clients and the architectural, engineering and interior design teams.

### **Candidate:**

- BA, architecture/engineering, construction management or related field
- 5+ years of experience working on large-scale facilities design projects in an industrial, office, retail or R&D environment; food and beverage experience a plus
- Solid knowledge of contracts (design and construction), schedules, cost estimating and the design process
- Proven success in developing client relationships to understand their business and advocate their needs
- Willingness to travel up to 20% of the time

### **Compensation:**

Competitive compensation commensurate with experience, plus excellent benefits package; Hixson offers a team oriented work environment, opportunity for personal and professional growth, challenging projects, and ownership potential.

### **Contact:**
